Shahtaj Sugar Mills Limited Notes to the Condensed Interim Financial Statements (Un-audited) for the nine month period ended 30 June 2020

1 THE COMPANY AND ITS OPERATIONS

Shahtaj Sugar Mills Limited (the Company) was incorporated in Pakistan on 27 March 1965 as a public limited company under the Companies Act 1913. Its registered office is situated at 19, Dockyard Road, West Wharf, Karachi. The Company is listed on Pakistan Stock Exchange and is engaged in the manufacture and sale of sugar whereas molasses and bagasse are its significant by-products. The business units of the Company along with their location are as follows:

Business Unit	Address
Registered Office	19, Dockyard Road, West Wharf, Karachi
Head Office	72-C/1, M. M. Alam Road, Gulberg-III, Lahore.
Production Plant	Kuthiala Saidan, Mandi Bahauddin

The Company is in the process to setup a bagasse based co-generation power project with an installed capacity of 32 MW. The project is being financed through a combination of debt and equity. The Company has received power generation license and upfront tariff for thirty years from the National Electric Power Regulatory Authority (NEPRA). The Company expects to commence commercial generation after obtaining approval from the competent authority and any surplus electric power, not consumed by the Company itself, will be sold to the Central Power Purchasing Agency (Guarantee) Limited (CPPA).

2 STATEMENT OF COMPLIANCE

These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards, the provisions of and directives issued under the Companies Act, 2017 have been followed.

The Company accordingly has adopted and applied the accounting policies, same as applied in the latest audited Financial Statements of the Company for the year ended 30 September 2019.

3 BASIS OF PRESENTATION AND MEASUREMENT

- **3.1** These condensed interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the financial statements of the Company for the year ended 30 September 2019.
- **3.2** These condensed interim financial statements have been prepared under the historical cost convention. These financial statements are prepared in Pak Rupees, which is the functional currency of the Company. Figures have been rounded off to the nearest thousand rupee unless otherwise stated.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of computation adopted in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the financial statements for the year ended 30 September 2019, except as follows:

4.1 New / Revised Standards, Interpretations and Amendments

The Company has adopted the following standards, amendments and interpretations of IFRSs which became effective for the current period:

IFRS 14	Regulatory Deferral Accounts
IFRS 16	Leases
IFRIC 23	Uncertainty over Income Tax Treatments
IFRS 9	Prepayment Features with Negative Compensation — (Amendments)
IAS 28	Long-term Interests in Associates and Joint Ventures — (Amendments)
IAS 19	Plan Amendment, Curtailment or Settlement — (Amendments)
IFRS 3	Business Combinations - Previously held Interests in a joint operation — (AIP)
IFRS 11	Joint Arrangements - Previously held Interests in a joint operation — (AIP)
IAS 12	Income Taxes - Income tax consequences of payments on financial instruments classified as equity — (AIP)
IAS 23	Borrowing Costs - Borrowing costs eligible for capitalization — (AIP)

The nature and effect of the changes as a result of adoption of IFRS 16 are described below. The adoption of other standards, interpretations and amendments applied for the first time in the period did not have any material impact on the condensed interim financial statements of the Company.

4.2 IFRS 16 - Leases

IFRS 16 supersedes IAS 17 Leases, IFRIC 4 determining whether an arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessee to recognize most leases on the statement of financial position.

The Company adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 01 October 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application.

The effect of adoption of IFRS 16 (increase / (decrease)) is as follows:

	30 June 2020	01 October 2019
Condensed interim statement of financial position (un-audited)	(Rupees in	thousand)
Assets Property, plant and equipment - right-of-use assets	22,413	23,732
Prepayments	-	(3,450)
Liabilities	00.004	00.004
Lease liabilities Deferred tax liability	20,281 427	20,281

The effect of adoption of IFRS 16 during the period ended 30 June 2020 is as follows:

Condensed interim statement of profit or loss (un-audited)	(Rupees in thousand)
Lease rental expense not booked	2,588
Depreciation - right-of-use assets	(1,978)
Impact on (loss) / profit before taxation	610
Taxation	(427)
Impact on (loss) / profit after taxation	183

The Company has lease contract for head office building. Before the adoption of IFRS 16, the Company classified its leases (as lessee) at the inception date as either a finance lease or an operating lease.

Leases previously accounted for as operating leases

The Company recognized right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The right-of-use asset were recognized based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognized. Lease liabilities were recognized based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

The Company also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease

4.2.1 Summary of new accounting policies

Set out below are the new accounting policies of the Company upon adoption of IFRS 16, which have been applied from the date of initial application:

^{a)} Right-of-use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

b) Lease liabilities - rented premises

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

5 SEASONALITY OF OPERATIONS

The Company is inter-alia, engaged in manufacturing of sugar for which the season begins in November / December and ends in March / April. Therefore, majority of expenses are incurred and production activities are undertaken in first half of the Company's financial year thus increase the volume of inventories and financing at the end of the first half.

6 TAXATION, RETIREMENT BENEFIT OBLIGATIONS, WWF AND WPPF

Provisions in respect of taxation, retirement benefit obligations, workers' welfare fund (WWF) and workers' profit participation fund (WPPF) are estimated and these are subject to final adjustments in the annual audited financial statements.
